# Lucky Facts!

## 5 LUCKY FACTS

about St. Patrick's Day

### 1. LUCK OF THE IRISH?

Although many St. Patrick's Day traditions revolve around luck, it's ironic to think that many Irish people were actually very unlucky, and history proves this. The phrase "Luck of the Irish" can be traced to the 1800s during the U.S. gold rush where a high number of Irish people found gold and silver. Since Irish immigrants were viewed as incapable, any success was deemed as luck - hence the phrase "Luck of the Irish."

### 2. LUCKY NUMBER 7

A rainbow has 7 easily distinguishable colors. Both the rainbow and number 7 are symbols of luck around the world. In slot machines, triple sevens mean you've hit the jackpot... your own pot of gold!

### 3. SPECIAL SHAMROCKS

The three leaves of a shamrock are said to stand for faith, hope, and love. A fourth leaf is where we get the luck from. The four-leafed clover, or "lucky clover", is an uncommon variation of the three-leafed clover, and widely considered to be a symbol of good luck.

### 4. GREEN: IS IT LUCKY?

In the 19th century, green became a symbol of Ireland (also called "The Emerald Isle"). Wearing green is patriotic, and considered lucky, especially on St. Patrick's Day. In Chicago, they celebrate St. Patrick's Day by dyeing the Chicago River green for the day, and many pubs serve green beer as a tradition. Don't worry though, it's safe to drink!

### 5. LUCKY LEPRECHAUNS

According to Irish legends, people lucky enough to find a leprechaun and capture him (or, in some stories, steal his magical ring, coin or amulet) can barter his freedom for his treasure. Leprechauns are usually said to be able to grant the person three wishes Good luck!
